

Information for dealers about the FAIR SQUARED reusable system “Zero Waste”

Thank you for choosing our products. FAIR SQUARED natural cosmetics is available exclusively in refillable reusable jars and bottles. These are part of a zero-waste cycle that meets consumer demand for plastic-free cosmetic products.

Reusable cycle from FAIR SQUARED - this is how it works:

- FAIR SQUARED offers you natural cosmetics in reusable jars which are taken back, cleaned and brought back into the cycle.
- You decide whether you want to charge a deposit to your customers or not.
- Returned jars will be collected from you. From 12 empty jars you can send them directly to FAIR SQUARED. You will find the address below. Please please fill out the “FSQ circuit form” and enclose it with the shipment.
- If possible, pack the 1.0 l and 2.5 l “Cosmetainer” for return shipment in the transport packaging in which it was delivered. This ensures a (breakage)-proof return shipment and, by the way, it saves resources
- FAIR SQUARED will reimburse you with a credit note sent by e-mail. The postage with 2.00 € for the 1.0l Cosmetainer, 5.00 € for the 2.5l Cosmetainer and each glass with 0.30 € net by bank transfer to your account.
